

IN THE SPECIFICATION

Please amend the title to read: Air Cleaning Device

Please insert the following prior to the first sentence of the specification:

This application is a National Stage application under 35 U.S.C. §371 of PCT/NO2002/000236, filed June 27, 2002.

Please amend the paragraph beginning at page 3, line 30 and continuing to page 4, line 2 as follows (inserting the letter "a" prior to "round"):

In addition, the device according to the invention may comprise coils 41 and 42 as illustrated in figure 4, wound by electrical conductors and connected in series with the heating element 20 in figure 2. The electric fields generated around the coils create a total electric field. The coils are preferably wound around the device in such a manner that the location of the centre in this total electric field coincides with the location of the device's other units.

Please amend the abstract as follows:

ABSTRACT

According to one aspect of the invention a device for purification of air is provided, including comprising

- a metal plate
- electrical connections connected to the metal plate in order to impress a voltage on the metal plate,
- a heating element for heating the metal plate, and
- a nozzle connected to a water supply in order to spray the metal plate with water.

In further embodiments the device includes ~~also comprises~~ a metallic cylinder, a fan disposed at one end of the cylinder and a restriction disposed at the other end of the
